28. Description of Change: (use additional Sheets if necessary)
LaRC requires a fix to several Staging Monitor NCRs to proceed with End-To-End testing. The required fix exists in the 4PY.Bath patch. Delivery of the EcDsStStagingDiskServer, EcDsStArchiveServer, EcDsStPullMonitorServer, and a database fix as test executables from the Bath patch will resolve the problem at LaRC. LaRC accepts the risk of taking the software before the completion of formal testing of the Bath patch.

29. Proposed Solution: (use additional sheets if necessary)
This CCR authorizes CSG to deliver the STMGT test executables and database fix from the 4PY Maintenance Branch (4PY.Bath code baseline) to the SMC, authorizes the SMC to distribute the files to LaRC, and authorizes LaRC to install the files.

30. Alternate Solution: (use additional sheets if necessary)
Wait until the 4PY.Bath PSR.

31. Consequences if Change(s) are not approved: (use additional sheets if necessary)
End-To-End testing at LaRC may fail.
